UI/UX - M-TUTOR

Mar 2025- current

A Web Designer M-Tutor is a creative and technically skilled professional who specializes in designing engaging and educational mobile-based platforms to facilitate remote learning experiences. Their primary role is to craft intuitive, visually appealing, and responsive web interfaces specifically optimized for mobile devices.

Projects

Finance App

- This finance app is a sleek and intuitive mobile application designed using Figma, aimed at helping users take control of their personal finances.
- The app features a smart dashboard that provides users with a quick snapshot of their financial health, including current balance, income, expenses, and savings goals.
- Each screen is designed with a mobile-first approach, ensuring responsiveness and accessibility across devices.
- Tech Stack: Figma .

M-tutor project worked

- The login and sign-up pages were developed as key entry points to the app, ensuring a smooth and secure user onboarding experience.
- The sign-up page guides new users through a quick registration process, capturing essential details like name, email, mobile number, and password. Input validation and helpful tooltips enhance user experience and data accuracy.
- Tech Stack : Figma .

Certifications

Certified in Web Development - Udemy
